

UHV: Universal Human Values

Course Name: Universal Human Values

Course Code: DA1001

SYALLBUS

Universal Human Value: Introductions, Educational Sanskar Aspirations and Concerns, Self- Management, Health, Relationships, Trust, Harmony, Need for a holistic perspective and way of living, Right Understanding (Knowing)- Knower, Known & the Process.

Course Objectives

- To help the student see the need for developing a holistic perspective of life
- To sensitize the student about the scope of life – individual, family (inter-personal relationship), society and nature/existence
- To strengthen self-reflection

Course Methodology

1. The methodology of this course is explorational and thus universally adaptable. It involves a systematic and rational study of the human being vis-à-vis the rest of existence.
2. It is free from any dogma or value prescriptions.
3. It is a process of self-investigation and self-exploration, and not of giving sermons. Whatever is found as truth or reality is stated as a proposal and the students are facilitated to verify it in their own right, based on their Natural Acceptance and subsequent Experiential Validation – the whole existence is the lab and every activity is a source of reflection.

Catalogue Description

The purpose of the course is to help develop a holistic perspective about life. A self- reflective methodology of teaching is adopted. It opens the space for the student to explore his/her role (value) in all aspects of living – as an individual, as a member of a family, as a part of the society and as a unit in nature. Through this process of self- exploration, students are able to discover the values intrinsic in them.

Goals of SIP

- To become familiar with the ethos and culture of the new surroundings
- To develop bonds with peers, seniors, faculty and staff
- To provide an exposure to a holistic vision of life
(based on larger national and human good; or the well-being of all)
Develop awareness, sensitivity and understanding of the
Self---family---Society---Nation---International---Entire Nature
- To develop a healthy lifestyle and ethical professional discipline
- To connect and appreciate the diversity of cultures
- To overcome weaknesses in some essential professional skills to be ready for higher study (only for those who need)

Modules of SIP

Module 1: Universal Human Values I (UHV I)	22 hours
Module 2: Physical Health and Related Activities	51 hours
Module 3: Familiarization of Department/ Branch and Innovation	06 hours
Module 4: Visit to a Local Area	10 hours
Module 5: Lectures by Eminent People	06 hours
Module 6: Proficiency Modules	06 hours
Module 7: Literature / Literary Activities	30 hours
Module 8: Creative Practices	49 hours
Module 9: Extra Curricular Activities	06 hours

In the UHV Module of SIP, the main points we want to highlight are:

1. Every student has the possibility to reach to their full potential as a human being
2. For this, we have to understand
 - Ourselves (our aspirations, concerns...), other people, other things around with which we interact...
 - Our relationships – with oneself, with other people, other things around us...
3. It is possible to understand – because
 - The need to understand is innate in every human being and
 - The potential to understand is intrinsic to human being
 - The essential things to understand are definite
4. We will use a process of self-exploration for this... we simply have to pay attention, and explore into the proposals... Let the time in this institution be a time of intense and joyous exploration!

UHV is an exploration into it, so that the student can discover their full human potential, develop a holistic plan for realising it and take some steps towards it

For this we will try to

1. Discover our aspirations and articulate our concerns
2. We can slowly realise that
 - We all have the same basic aspirations
 - We have to understand to fulfil our aspirations
 - We all have some concerns, some problems, These can be different for different students
 - To resolve any problem or concern also, we need to understand
3. The process to understand is simply to pay attention. We can easily do that. We can understand, realise our aspirations and resolve our concerns
 - E,g, Find out if it is true that “whatever you have paid attention to has revealed itself to you”. E.g. maths seemed so difficult, but now you know it... because you paid attention to it
4. In this UHV module, we will go over this process at four levels
 - Individual, family, society and nature

Aspirations (what you want to achieve)

- Regarding self, as an individual
- About family, friends, other people
- Related to society, societal systems
- In the natural environment

Concerns (what you want to get rid of)

- Regarding self, as an individual
- About family, friends, other people
- Related to society, societal systems
- In the natural environment

Aspirations and Concerns

You must have completed your home assignment:

- Make a list of your aspirations (चाहना), the expectations (अपेक्षा) of your family and friends and the hopes (आशा) you see the nation has from you.
- Make a list of your achievements in your life
- Make a list of your concerns, fears, confusions, questions, etc.

Let us get some of the points from these lists on the board

Aspirations	Achievements	Concerns
To do well in college	Came first in my class	Tension, peer pressure
Happiness in the family		Anger, not much time for family

Effort

We are all making tremendous effort!

Is the effort (प्रयास) that you are making:

- **To fulfil your aspirations (चाहना)?**

or

- **To resolve your concerns (चिंता), confusions (भ्रम) and questions (जिज्ञासा)?**

or

- **For something else?**

Make a list of all the effort that you are making

Note down why you are making that effort

(to fulfil your aspirations or to resolve your concerns or for something else)

For example:

I am studying hard... so that I do well in class... and get a good job... so that...

I do what my mother wants... to express my respect to her... so that...

I am saving my pocket money... to buy a mobile for my brother... so that...

Aspiration**

Fulfilling Life

Which one is your basic aspiration (1 or 2 or 3 or 4)?

Can you see that your basic aspiration is to be happy and prosperous?

Can you see that becoming something, doing something, getting something etc. are just the steps to achieve your basic aspiration?

Would you like to make sure that the steps you choose will lead to your happiness and prosperity?

How would you like to plan your life?

1-2-3-4: Plan the steps without being clear of your basic aspiration?

or

4-3-2-1: Develop clarity of your basic aspiration (happiness and prosperity) and then work out the steps?

Check how you are planning now

Life without Clarity of Basic Aspiration

If the basic aspiration (**where you want to reach and stay there**) is not clear, then it is likely that:

1. The direction of your effort may keep changing (as assumptions change)
2. You may not know if you have arrived or not
3. Very likely that there will be a mix of satisfaction and dis-satisfaction (appiness and unhappiness)

**Present
effort**

**Expect to
become
something**

**Expect to

something**

The Basic Aspiration (Goal)
is not clear or it is vague, like:

- Aim for the sky
- Make money and have fun
- ...

Life with Clarity of Basic Aspiration (Goal)

- (1) Our basic aspiration (human goal) is very clear – the destination is fixed
- (2) We know our current state (right evaluation)
- (3) We plan steps that connect and lead to the fulfillment of basic aspiration
– direction is definite

Many Paths or only One?

Now that we can distinguish between basic aspiration and the steps or path to fulfill it, find out **what would be appropriate if your “favourite” path is closed:**

- **Be unhappy, get depressed, become inactive?**
- **Find an alternate path?**

Examples:

- I wanted to go to the US for my degree, but I was forced to take admission here by my parents. My dreams are shattered
- I did not get the branch of my choice. My motivation to study is gone
- I did not get the room mate I wanted. I am unhappy

From the previous session: Human Goal = Happiness & Prosperity

- (1) Our basic aspiration (human goal) is very clear – the destination is fixed
- (2) We know our current state (right evaluation)
- (3) We plan steps that connect and lead to the fulfillment of basic aspiration
– direction is definite

Introduction

In the previous session, we saw that **our basic aspirations are happiness(सुख) and prosperity(समृद्धि).**

The home assignment was to check if this is true for you.

We also asked you to write down your perspective about happiness and about prosperity..

In this session we want to explore into two questions:

- Are happiness and prosperity our basic aspirations?
- What is needed to fulfil these aspirations(चाहना)?

Through this exploration, we will also see what this UHV-I course is about. It will help to answer questions like:

- What is the content of UHV?
- What is the process of UHV?
- Why are we doing this course (UHV-I)?
- Will it really help me in fulfilling my aspirations?
- Will it really help me in addressing to my concerns?

We will Explore on our Own Right: The Process of Exploration

Whatever is said is a **Proposal** (**Do not assume it to be true or false**)
Verify it on Your Own Right – on the basis of our **Natural Acceptance**

It is a process of **Dialogue**

A dialogue between me and you, to start with

It soon becomes a dialogue **within your own self**

between what you are and what you really want to be
(your natural acceptance)

The purpose of this program is to initiate this internal dialogue

Although we have Recognised the need for Relationship...

We do get into **arguments, opposition and fights**... even in the family, with close friends, with colleagues at work... in the marketplace...

Every time we have a fight, we want to resolve it...

We say sorry, patch up and promise not to fight in future but...

Even though we don't want to, a fight does take place once again
(we want the other to improve... and the other wants us to improve...)

Is this happening?

Are incidences of reaction... not speaking to the other... arguments... debates... divorce... increasing or decreasing?

To develop a holistic perspective

Which includes all aspects of our real life:

- Ourselves
- Our family, friends, classmates, seniors, teachers... (Human Relationships)
- Our society (social systems)
- Our natural environment

In other words, a holistic perspective means understanding harmony:

- Harmony in Human Being
- Harmony in Family
- Harmony in Society
- Harmony in Nature/Existence

Home Assignment

Home Assignment 3.1

Take your list of aspirations + concerns (from session 1 home assignment).

Find out what is needed to fulfill your aspirations + address your concerns:

- right understanding (clarity)
- relationship (right feeling)
- physical facility (money, some real physical facility like food, clothes, shelter, mobile...)

<u>eg. Aspiration/Concern</u>	<u>right und</u>	<u>relationship</u>	<u>physical facility, body</u>
Money	?	?	✓ (salary...)
Name, fame, attention	✓	✓	✓
good food	?	?	✓ (food)
latest bike	?	?	✓ (bike)
peace of mind	✓	✓ (family & friends)	
good health	✓	✓	✓

Also find out how much time and effort you put in every day in these 3 areas

<u>eg.</u>		<u>right und</u>	<u>relationship</u>	<u>physical facility, body</u>
College work	10 hrs	1 hr	2 hrs (talking)	7 hrs (skills)
eating	2 hrs			2 hrs
sleeping	8 hrs			8 hrs
other activity	4 hrs	3 hrs (worship, TV)		1 hr (bath, gym etc.)
		4 hrs	2 hrs	18 hrs

Home Assignment 3.2

Take your list of aspirations. Classify the aspirations into four categories:

1. Aspirations at the individual level. E.g. you aspire to be happy within, to be healthy
2. Aspirations at the level of family. E.g. you aspire to be comfortable with everyone in your family and you want them to be assured of you
3. Aspirations at the level of society. E.g. You aspire for a good job
4. Aspirations at the level of nature. E.g. You aspire for natural resources to be readily available

Similarly, take your list of concerns. Classify the concerns also into these four categories:

1. Concerns at the individual level. E.g. you want to get rid of anger, tension, frustration and peer pressure
2. Concerns at the level of family. E.g. you want to overcome the pressure to conform to their norms
3. Concerns at the level of society. E.g. you wish that the domination, exploitation, differentiation and terrorism is resolved
4. Concerns at the level of nature. E.g. you'd like the pollution levels to reduce

In the next session, we will discuss the aspirations and concerns at the individual level.

Home Assignment – Conclusions

Analyse your list of your aspirations + concerns Find out what is needed to fulfill them:

– right understanding – relationship (right feeling) – physical facility

<u>Aspiration /Concern</u>	<u>right und</u>	<u>relationship</u>	<u>physical facility, body</u>
Money	✓	✓	✓ (salary...)
But with a base of relationship & right understanding			
Good friends	✓	✓	✓
But with a base of right understanding			
Peace of mind	✓	✓ (right feeling within)	May not be required!

CONCLUSIONS:

- For the fulfilment of any aspiration or for addressing any concern, right understanding and relationship are definitely required. Physical facility may or may not be required
- In general, our effort is mostly for physical facility (maybe because we have assumed that it is the main thing required for a fulfilling life).

PHYSICAL FACILITY

**For human beings:

These are two different types of needs

Let us explore if one type of need can be fulfilled by another

Ex: Sitting in a hot room... we are uncomfortable & unhappy

Q: Does an AC help us resolve our discomfort & unhappiness?

- An AC does help resolve the physical discomfort
- However, it is not clear that the AC provides any relief from unhappiness

Ex: Sitting in an AC room... with someone we are opposed to...

Q: Is the feeling of opposition naturally acceptable? Or do we want to get rid of the feeling of opposition, to resolve the relationship?

- We can see that an AC has no impact in resolving relationship
- Physical facility does not have any lasting impact in relationship. E.g. A gift can at most distract attention for some time – it is not a solution
- Right understanding about relationship and right feeling in oneself is required for resolving the relationship

Ex: Sitting alone in an AC room... thinking about one we oppose...

Q: Does the AC help us resolve the contradiction in our thoughts?

- We can see that an AC has no impact in resolving contradiction in thoughts
- Right understanding is required to resolve contradiction in thoughts

Review of Home Assignment

You must have completed your home assignment – to classify your aspirations and concerns into 4 categories:

1. At the individual level (स्वयं के स्तर पर)
2. At the level of family (परिवार के स्तर पर)
3. At the level of society (समाज के स्तर पर)
4. At the level of nature (प्रकृति के स्तर पर)

Let us get some of them on the board

We will focus on the aspirations and concerns at the individual level in this session

Aspirations and Concerns at the Individual Level

To be happy (सुखी होना)
To be healthy (स्वस्थ होना)
To be prosperous (समृद्ध होना)
Knowledge – quest for knowledge
(ज्ञान – सही जानने की कोशिश करना)
Ability to decide properly on my
own, independently
(अपने अधिकार पर स्वतंत्र होकर निर्णय
ले पाने के काबिल होना)
Purification of the mind (मन की
शुद्धता)
Controlling the mind (मन को नियंत्रित
करना)
Self confidence (आत्म विश्वास)

Coming out of stress
Managing pressure of academics
Time management
Time lost due to illness
Entertainment
Sensual desires
Domination of females by males
Pressure of placement
Overcoming –ve thinking
Attending classes
Peer pressure
Temptations
Anger
Depression
Suicidal thoughts

Aspirations

To be happy

Self confidence...etc

We want to fulfil our aspirations

Fulfilment of Aspirations

Our basic aspirations are fulfilled by

1. **Right understanding(सही समझ)** in the self
2. Living with fulfilment in **relationship(सम्बन्ध)** with human beings and
3. Ensuring more than required **physical facility(सुविधा)** with rest of nature

Should education help us to ensure right understanding?

Should education help us to ensure right skills?

Time management
Time lost due to illness
Entertainment
Sensual desires
Domination of females by males
Pressure of placement
Overcoming –ve thinking
Attending classes
Peer pressure

Anger
Depression
We want to resolve our concerns

Resolution of Concerns

Generally, we try to address these piecemeal. We make effort for personality development, stress management, memory enhancement, anger management and so on.

Are these concerns independent issues or they are interlinked?

Are there many issues or is there a basic root issue?

Basic Issue / Root Cause

Proposal (प्रस्ताव): The basic issue is “lack of right understanding”

When we do not understand a reality, we are not able to live with fulfilment with that reality. So, if we do not understand human being, we are not able to live with fulfilment within.

We want to explore the outcome of understanding the reality “human being”:

- Will we be able to live with fulfilment within?
- Will our concerns at the individual level get resolved?

So, let us try to understand human being
(and then find out if our concerns can be resolved)

Does understanding human being make a difference in living?

While selecting and eating food, what is desirable?

Body is nourished + Self is happy
Body is nourished + Self is unhappy
Body is not nourished + Self is happy
Body is not nourished + Self is unhappy

Find out what happens at the level of Self and Body, when:

- Someone is forcing you to eat when you are not hungry
- You are eating “junk food”
- You select nutritious and tasty food to eat
- While serving, the plate is pushed to you “take – eat (ले – खा)”

Does understanding human being make a difference in living?

When do you tend to make more mistakes ?

- when you (Self) are disturbed within ?
or
- when you (Self) are comfortable within ?

Does a small child also need respect?

What about - an old woman? A rich man? A sweeper? A well-dressed person? A begger? Someone who speaks fluent English? . . . Everyone?

Do we interact with respect in all cases or is it conditional?

What is the outcome?

- Are the needs same for all human beings or are they different for different people?
- Is the program for fulfilment of needs the same for all human beings or is it different for different people?
- For men-women, young-old, students-teachers, Indians-Americans, rich-poor etc.?

Human being is the co-existence of the Self and the Body

The Body needs physical facility

It is fulfilled by physio chemical things from rest of nature

Happiness is the need of the Self

It is fulfilled by right understanding and right feeling in the Self

(It can not be fulfilled by physical facility)

(it can not be fulfilled by getting feelings from others)

4.1. From your exploration of human being as the co-existence of Self and Body, could you see that you have two types of needs:

- A continuous need (like need for respect)
- A temporary need, which is required from time to time (like the need for food)

Make a list of your needs. Mark those that are required continuously and those that are needed from time to time.

4.2. If you feel happy when someone pays attention to how you look, your clothes, your way of speaking etc., **find out if you can get continuous happiness from the attention of others.**

4.3. Do an experiment to find out if you can get continuous happiness from eating food. Take a large quantity of your favourite sweet. Start eating the sweets one by one and keep observing how you feel. **What is your conclusion from this experiment?**

Note: you could take any sensation that you consider as a source of happiness for you instead of tasty food for this experiment

Continuous happiness from feelings from others?
(like attention from others – family, friends, etc.)

We seem to have a deep desire to belong. We want to be accepted and respected by our peers

In this session, we want to explore how we go about this.

We want to be accepted by others

We think that we will be accepted when we are like them or better than them – in how we look, how we dress, how we talk, what we eat, what we drink, etc.

So, there is a pressure to be like them or better – in appearance, clothes, language and expression (e.g. English), etc.

This is part of the peer pressure

**Even the other is in the same state
Asking for being accepted by you!**

1. Copying (नक़ल) – we give in to peer pressure

- We copy their do's and don'ts (appearance, language, lifestyle, etc.)
- We let the other decide for us (though we may or may not be comfortable with their choice)
- We keep accepting wrong notions (based on preconditioning), because we don't have the practice, self-confidence of verifying things (notions) on our own right !

2. Arbitrariness (मनमानी) – we rebel (विद्रोह)

- We do our own things, do whatever we like
- We reject the other

Resolution – Explore if This is What you Really Want

There is a third option:

3. Right Understanding (सही समझ)

Verifying things on your own right:

- On the basis of your **natural acceptance** and
- On the basis of validating by living accordingly (experiential validation)

If our sense of belongingness is on the basis of understanding (human being...), then it is permanent and with all (we feel comfortable with all)

Verify on your own right:

Language is only a means of communication (what is communicated is more important than language, expression)

Speaking in a particular language ensures your respect?
Continuously, with all?

Clothes are for the protection of the Body

Can you get respect by wearing a certain type of clothes?

Continuous, from all?

Rather. wearing exclusive clothes may lead to jealousy

Human Being = Co-existence of Self(I) and Body

Human being is a co-existence of Self (I) and Body

Need of the Self (I) is happiness

- which is fulfilled by Right Understanding & Right Feelings (like feeling of respect)

Need of the Body is physical facility

- which is fulfilled by Physio-chemical things (like food)

Both needs have to be fulfilled separately

Today, we seem to be neglecting the need of the Self

If we assume that happiness may be ensured by **favourable feeling from others**, we try to get these feelings from them by way of:

1. **Being ahead of others** - (in terms of appearance, clothes, language & expression- English, money etc)
2. **Seeking likeness** - belongingness with a specific group (because others are doing it/ having it, so should I)

These two become the major sources of peer pressure

What is Naturally Acceptable to You? What is the Solution?

Copying – adopting

- Living on the basis of others (some do's & don'ts)

- Indefinite conduct

- Sometimes “happy”
Sometimes “sad”

Resolution of Concerns

Generally, we try to address these piecemeal. We make effort for personality development, stress management, memory enhancement, anger management and so on.

Should education help us to resolve our concerns?

- One concern at a time?
or
- Holistically by ensuring right understanding + right skills?

Peer Pressure in the New Environment

When students join college, they are mostly on their own, without parental oversight and have to fit in with the new environment

- They may be comfortable with their mother-tongue, but students who talk in English are given more attention
- They may be used to speaking without expletives, but senior students freely use abusive language
- Similarly with clothes, hairstyles and so many things...

There is a perceived pressure to conform (peer pressure)...

	Feeling of Self-regulation(संयम) Feeling of responsibility toward the body – for Nurturing, Protection and Right Utilization of the Body	Health (स्वास्थ्य) 1. The Body acts according to the Self 2. Parts of the body are in harmony (in order)

Health problems today are more due to

1. Problem with the body
2. Problem with the Self
3. Neither body nor Self

Feeling of Self-regulation(संयम) → Program for it → Health in the Body

The Body is an **orderly system** (a harmony). It has **definite conduct** -

All the cells in the body work together, in harmony with each other, participating in the larger order to form tissues, organs and organ systems.

I (Self) have to ensure the continuity of that harmony (not disturb it).

If I have a **feeling of responsibility** toward the body, I will do what is required for fulfilling that responsibility.

This will ensure **health** in the Body.

Out of self-regulation and health, what holds the higher priority for you

Answer 1: Having the feeling of Self-regulation

Answer 2: Having a healthy body to start with

Next we will explore program to ensure health

Program

(A) For Staying Healthy

- 1 Intake

and

Daily Routine (Lifestyle)
- 2 Labour

and

Exercise
- 3 Postures for regulating internal & external body organs

and

Regulated Breathing

(B) For bringing body back to harmony from temporary disharmony

4 Medicine

and

(C) Dependence on drug / machine to perform a body function

Treatment

I can see that all the four programs are important for my health

1a. Intake

A. Strongly agree

1b. Risk

B. Agree

2a. Outcome

C. Neither agree nor disagree

2b. No

D. Disagree

E. Strongly disagree

Intake(आहार)

Intake includes all that we take in through our sense organs – air, water, sunlight, food...

Along with this, we also have feelings and thoughts in response to outside events/circumstances etc.

To maintain health:

- Intake of food that is not only tasty but also nutritious and digestible and rich in fibre (making its waste easily and efficiently excretable)
- Intake of water in the right amount and at the right time
- Daily exposure to fresh air and sunlight
- Awareness of choice of food as above and how much to eat (sensation of fullness)
- Avoiding distractions by other intake through our senses and the thoughts they generate in us, especially while eating.

e.g. what we are seeing (focusing on the meal or watching TV, playing games on the mobile etc) and hearing/being a part of (?arguments with others),

Daily Routine (विहार) – in Harmony with Nature (Circadian Rhythm)

Ensure adequate movement of the Body + production of physical facility

Ensure adequate movement of the Body

Examples:

- Sweeping and swabbing your room / house / hostel
- Kitchen gardening
- Cycling to your college and back...

Postures for regulating internal and external body organs

Regulated Breathing

Examples:

- Yoga (योग)
- Pranayam (प्राणायाम)

Medicine	Treatment
<i>For bringing body back to harmony from temporary disharmony</i> Home remedies Integrated systems of medicine	<i>Using a drug / machine to perform a body function (dependence)</i> Examples: • Insulin • Dialysis

What is my take on the 'priority' for programs for health?

- A. Strongly agree
- B. Agree
- C. Neither agree nor disagree
- D. Disagree
- E. Strongly disagree

6.1. When we assume that **Human Being = Body**, happiness is sought through sensation (through the body)

As a result,

- The body is harmed due to excessive consumption or over indulgence to get favourable sensation

Over eating, consumption of "junk food" etc. is common

A large number of diseases are psychosomatic in nature

- There is a major impact on family, society, nature...

What is a holistic solution to address these issues?

Looking at Health holistically

Health of the Human being = Health of the Self → Health of the Body

The family has an impact on the health of the individual

A family that keeps “an early to rise and early to bed” schedule is healthier

A family with internal strife, fighting etc. may be more prone to illness

Like that, in the society and nature

Holistic

Health

Health of the **Self** **1**

Health of the **Body** **2**

Health of the **Environment** **3** = Health of Family, Society, Nature

Discussion: Health of the Family, Friends Circle...

Food habits

Daily routine

Collective labour

Collective exercise...

Home remedies...

Discussion: Health of the Society (Institution...)

Hostel – Timings for healthy lifestyle (sleeping time, waking time...)

Mess – Options for tasty and healthy food, giloy kadah...

Canteen – Tasty and healthy options

Hello dear Students,

I Dr. Anand Pandey, Professor in Department of Mechanical Engineering, Manipal University Jaipur, welcomes you all in this session focusing on Sanskar's in Education.

Dear Students,

1. *The role of Sanskar within us. Sanskars- means the good processes and ethic followed by the students mentored by the parents, Guru's and all elders in the home for an individual.*
2. Sanskar also means the culture followed by all we see in our family and at society level or whether it is related to religious festival disciplines followed by all of us to be familiar by our nation festivals.
3. In the present educational world for all students, continuous upgradation of knowledge pertaining to right understanding with happy life and harmony to others is must for inner and professional development. This helps the students to understand others in correct pathway at all levels of professional and personal life. This can be only achieved through sanskars given to students at the levels viz. home, family, society and educational institutions.
4. The Education-Sanskar may be achieved by the students:-
 - A. Right understanding
 - B. Good and healthy relationship with others
 - C. Knowledge of need of physical things
 - D. Feeling of prosperity
 - E. Healthy diet and doing exercises
 - F. BE HAPPY WITH OTHERS

Slide 2

Dear Learners, At the end of this course , you will be able to: Understand the role of sanskars in our daily life and aspiration in life

Slide 3

Sanskar is an integral of total Commitment, Preparation and Practice for Right Living Preparation includes Learning Right Skills in the students. Dear Students, we understand this concepts like in our daily life since your childhood you have been told by your mother, father or other guardians how you can become an ideal child by awakening early in the morning, going for jogging or walking , doing exercises and yoga daily as a part of routine. This will help you to maintain your good health and fitness. So these are the sanskars which are inbuilt by your parents. If you are going to attend your classes and in every class as your course teacher enters in the class, you give regards and respect to your teacher by saying good morning or good afternoon then this may also be considered as part of Sanskar's.

Now question comes in our mind that if an individual student having lack of Sanskar's then how he or she will behave and what will be its impact in their daily life.

Dear Students please be noted always, good habits will make you more stronger person in your professional career and you will be able lead, guide and coordinate others with your good habits or sanskars but in the absence of sanskars and lack of right understanding you will not be able to make right decisions in your daily life.

Slide 4

Dear Students, now we will discuss the Sanskar-education parameters one by one. They are

- **Good Daily routine:** means following a daily chart from awakening to sleeping as per schedule.
- **Good Healthy food intake:** means taking fruits and green vegetables with correct composition of vitamins and proteins for being healthy. So, will be able to resistance from virus and many diseases.
- **Daily Yoga and exercises:** Again all students need to maintain your good health and be fit by doing yoga and exercises.
- **Meditation:** Meditation should also you can do on weekly basis or daily also for few minutes in the morning.
- **All vedic and religious sanskars followed:** All students need to follow their vedic and religious sanskars also.
- **Respects to Guru's and parents**

Students let us understand this concept of Sanskars with a short story.....

The story of Rama

Long ago, in India, there lived a king called Dasharath. Ayodhya was the capital of his kingdom (It is a part of Uttar Pradesh present day India). Dasharath had three queens, Kausalya, Kaikeyi and Sumitra. Rama was the son of queen Kausalya, Lakshman and Shatrughna were the sons of Sumitra, and Bharat was the son of Kaikeyi. Everyone loved Rama, because of His good nature and truthful character. Rama, being the eldest son of the king, was the heir to the throne. When King Dasharath grew old, he decided to retire and make Rama the crown king of Ayodhya. As the day of coronation came near, the city started to prepare for the occasion and the queens were happy for the upcoming event. However, things did not go according to King Dasharath's plan.

When Sita (Rama's wife), Lakshman (Rama's half-brother) and Bharat (Rama's half-brother) came to know about this, they too, insisted on accompanying Rama into exile. However, Rama made sure that Bharat stayed behind to look after the kingdom, as per his father's promise. Then Rama and Sita, along with brother Lakshmana, left Ayodhya.

Rama, his devoted wife Sita and brother Lakshmana remained in exile in a forest called Dandakaranya for 14 years. During the exile, Rama became the savior of the Sages in the forest, and the destroyer of the demons and the evil king, Ravana.

Dear Students, even something so small as losing a chance for a birthday party would make us very unhappy and upset. ShriRam was told not only to leave the chance to be king, but also to go and live for 14 years in a forest, away from everyone and everything He loved. However, ShriRam obeyed without any sorrow or anger. This and many other instances in the life story of ShriRam show His Godly qualities like obedience, love and sanskars. Though we are not perfect like ShriRam, we can someday become perfect like Him, by developing good qualities in ourselves.

Role of educational sanksar is very important to understand by you all as once we have in built the good habits and sanskar within us, then our holistic development such as harmony for others, happiness in continuity and felling of care for others will take place for your friends. Hence, there will be transformation in your personal and profession life which will help you for overall development .

And finally the feeling of right understanding within us will helps us to take right decisions and live in harmony.

Thank You. Hope you have enjoyed the session.
